The Changing Nature of Leadership: Survey

Readers might be interested in taking part in this short survey being conducted by the Centre for Creative Leadership (US [CCL](#)), the 2nd phase of a research project exploring the current state of leadership internationally and forecasting trends in how executives and managers will approach leadership in the years ahead.

In appreciation for your contribution, the CCL will forward you a copy of the final survey results. **Click [here](#)** for the survey.

Complimentary Coaching Session

Give yourself time and space to reflect on where you are going and how well, to **focus on solutions** rather than the problems?

- Are you having challenges with staff? Are generations at work proving a challenge?
- Is business all-consuming?
- Do you have enough time for friends and family?
- Or yourself?

Why not consider working with a Coach (by phone & email or in person) to help you find a different perspective, develop leadership skills, achieve work-life balance ?
